DEATH OF MISS JENNINGS
Funeral Will Occur at Two O'clock This Afternoon

Obituary.
Entered into rest December 17, 1897, Benjamin P. Sawin, son of Flavia J. and Cynthia J. Sawin, formerly of near Mendonville, Illinois.

Bennie, as he was familiarly called, was the second son then living, two infant brothers preceding him to the silent land. He was born October 15, 1872, near Little Rock, Warren county, Illinois, but removed to Kansas with his parents about 1883, residing with his parents near Derby, Sedgewick county, where he died Friday morning, Dec. 17.

He leaves six brothers and four sisters with his sorrowing parents and many friends who mourn his early departure.

He had been ailing since Dec. 6, but as he had been so weak previously he was not thought to be dangerously ill until heart failure set in and he passed suddenly away.

He had been a sufferer since he was 4 years old from inflammatory rheumatism, but lately the writer thought his lungs seemed to be the chief ailment. He had just paid a visit to a relative and friend of his boyhood in "old Oklahoma" and expected to return Christmas or after to engage in farming his place when death called him.

The writer will remember, while life lasts, his merry, boyish ways, his bright eyes and kind heart. And a strange pang of sorrow thrills through his heart as he says: "Is it possible that merry-hearted, bright-eyed Bennie is gone? That we shall greet him no more this side the silent River?"

But, oh, blessed Redeemer, lead him gently, gently by the still waters. His waves are so cold—so cold! But Thou

THERE IS A CLASS OF PEOPLE
Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without harm, and but few can tell it from coffee. It does not cost over 5¢ as much. Children may drink it with great benefit. 15¢ per package. Try it. Ask for GRAIN-O.

GRATIFYING RESULTS.

INTERESTING EXPERIMENTS WITH THE NEW STOMACH REMEDY.

Not a Patent Medicine, But a Safe Cure for all Forms of Indigestion.

The results of recent investigation have established, beyond question, the great value of the new preparation for indigestion and stomach troubles; it is composed of the digestive acids, pepsin, bismuth, Golden Seal and similar stomachic, prepared in the form of 20-grain lozenges, pleasant to the taste, convenient to carry when traveling, harmless to the most delicate stomach, and probably the safest, most effective cure yet discovered for indigestion, sour stomach, loss of appetite and flesh, nausea, sick headaches, palpitation of heart, and the many symptoms arising from imperfect digestion of food. They cure because they cause the food to be promptly and thoroughly digested before it has time to sour, ferment and poison the blood and nervous system.

Over six thousand people in the state of Michigan alone in 1896 were cured of stomach troubles by Stuart's Dyspepsia Tablets.

Full sized packages may be found at all druggists or sent by mail on receipt of price from Stuart Co., Marshall, Mich. Send for free book on stomach diseases.

"Can't make a dying bed feel soft as downy pillows are."

We pray that our loved one's feet may have reached that shining shore and are at rest "where no sickness and sorrow ever comes and where God shall wipe away all tears" for Jesus' sake.

Forever, dear Bennie, "Thou mayest not return to us, but we shall go to thee. Till then, rest thou in the Everlasting Arms, more pitiful and tender than father's are."

Again, farewell. E. G. C. VERSES WRITTEN ON BENNIE'S DEATH.

Softly! The Boatman is rowing!
I hear the dip of the oar.
List to the River's flowing.
As it sweeps by the silent shore!
Lies he called to our loved one:
"Hasten, the vessel waits."
And it bears him away with the billows
As it sweeps near the shining gates!

"Must you take him, our brother, our dear one?"
"Oh, Boatman, pray!"
But he silently carries our loved one
Over the "Shining Way."
We stretch our hands in appealing.
We wring them and weep and pray:
At thy feet, Dear Lord, we are kneeling—
Show us thy loving way.

We return to thee, but we shall go to thee,
We reach for thy loving hand,
Lead us and our dear one safely
Unto that "Better Land."

CONTEST OF MAXILLARIES
Fitz Corbett Symposium Has Got Down to Business Again.

New York, Dec. 29.—W. A. Brady today posted \$2,500 with Al Smith to bind a match between Corbett and Fitzsimmons.

Brady tonight sent to the Associated Press, the following challenge of Robert Fitzsimmons, champion pugilist of the world:

"James J. Corbett, dissatisfied with the result of his late contest with you at Carson City and not believing that you are his superior either as a boxer or a fighter, and being of the opinion that the majority of the American public shares his belief that he can defeat you if ever you are man enough to grant him a return battle on equal conditions, has deposited today \$2,500 as a first deposit to bind a match for \$10,000 a side, the persons offering the largest inducements to have the management of the contest. As you have said today that your wife has withdrawn her objections to you again entering the ring, there is no reason why the arrangement should not be speedily consummated, for you, in my presence, at Carson City, gave Corbett your word of honor that if you ever entered the ring again you would give him the first chance. It is useless for you to attempt to deceive the public and try to boom your private interest by attempting to force Corbett to meet some second or third rate boxer before he shall be entitled to your notice. He will not agree to meet Maher, Sharkey or any one else. He claims the chance that he gave you the right to win back the championship. He clearly proved himself in your class on March 17 last, and it was by only the greatest kind of fluke that you are now entitled champion and do not ever forget until your dying day the heading that he gave you then, and if ever he secures the opportunity to again face you in a 24-foot ring I will guarantee you that he will prove conclusively and beyond a question of doubt whether or not he is in your class."

(Signed) "WM. A. BRADY."
Dan Stuart, who managed the Fitzsimmons-Maher and Fitzsimmons-Corbett bouts, said today that he would leave for the west next week and hoped that he would secure the signatures of both Fitzsimmons and Corbett to articles of agreement to a ring contest which he proposes to bring off next summer, probably in the state of Nevada.

He said that as matters stand now he does not anticipate any trouble in getting Corbett to sign and he is equally hopeful of gaining the consent of Fitzsimmons to meet the big Californian in the ring once more. Just what the amount of the purse which he would offer would be Mr. Stuart refused to say. Mr. Stuart would like to have the contest take place not earlier than next July and said that he would like to arrange a meeting between McCoy and Chynoweth or some other good middleweight to take place in the same week as the Corbett-Fitzsimmons contest. If he can succeed in making arrangements for both contests Stuart said he would offer excellent inducement for the winners of both these bouts to meet six months later, so that in the event of McCoy and Fitzsimmons winning they could settle their differences as to their respective prowess within the year 1898. Mr. Stuart expects to be in Chicago by the latter end of next week and said it would be no fault of his if the big fellows did not come to an agreement.

Cincinnati, O., Dec. 29.—James J. Corbett, who is spending the holiday week here, is tonight writing a challenge to Fitzsimmons. Corbett says that when Fitz announced his retirement from the ring he did not feel at liberty to challenge him. Now that Fitz has announced that he is still in the ring, the challenge will be prepared within a day or two.

NO WITNESS ALIVE

JOE GLADNEY ESCAPES A MURDER CHARGE EASILY.

On the Point of Being Requisitioned for Crime Said to Have Been Committed in Louisiana, a Colorado Penitentiary Convict Is Believed to Leave of the De-mise of the Only Man Whose Testimony Could Hurt Him—Durrant's Parents See Ex-Juror Smyth—Girl Killed by a Brute's First Blow.

Denver, Col., Dec. 30.—Joe Gladney, alias E. H. Jones, an inmate of the Colorado penitentiary, wanted in Louisiana for murder committed in 1888, will go scott-free at the expiration of his term next week, through an odd circumstance. Governor Adams received a telegram from the Louisiana authorities today stating that the only witness the state had to convict Gladney of murder had just died. The application for an extradition was therefore withdrawn.

JUROR SMYTH SUEB.
San Francisco, Dec. 30.—Mrs. Isabella M. Durrant and William A. Durrant, mother and father of Theodore Durrant, have brought suit for slander against ex-Juror Smyth and demand \$50,000 damages from him. The complaint was sworn to by Mr. Durrant. General John H. Dickinson and W. W. Foote are the attorneys representing the Durrants in the litigation. The suit grows out of remarks made by Smyth about Durrant, whom he accused of being a moral monster.

CHEATS THE HANGMAN.
Columbus, Mo., Dec. 30.—John Hunt, sentenced to be hanged here January 12, for the murder of his daughter, Mattie Rea Hunt, was today declared insane by a sheriff's jury. Hunt is 73 years of age and lay unconscious on a litter during the time the examination was in progress. The finding of the jury will be communicated to the governor, who will be asked to suspend the execution and send Hunt to an insane asylum.

FATAL FIST-BLOW.
Cincinnati, Dec. 30.—A. Millwood, W. Va., special to the Times-Star says, news has been received there that James McCoy of Mud Run, near Ripley, killed his sister-in-law, Miss Shanahan, by a blow of his fist. He had forbidden her to go to school but she took her books and started. He followed and struck her a heavy blow on the neck, killing her instantly. McCoy is described as a man of violent temper. He has not been arrested.

ACQUITTED OF LARCENY.
Chicago, Dec. 30.—Theodore H. Schintz, lawyer and private banker, who failed several months ago with liabilities aggregating over \$100,000, was acquitted today of the larceny of \$1,000 from Hulda Fontana, who claimed Schintz received the money from her knowing himself to be in an insolvent condition. Emil H. Schintz, brother of the Theodore Schintz bank, was also acquitted of the same charge. Many other similar charges have been made, one of which, the charge of embezzling \$30,000 from the estate of Franz Ertel, it is said, will be brought to trial at once.

"ANK KEE" AT GARDEN CITY.
Delicious Large Audiences With His Oriental Lecture and Museum.

Garden City, Kan., Dec. 28.—General G. W. Bailey, "Tank Kee," gave his first lecture here in the Union church, last night to a large and delighted audience. His description of China was a wonderful picture of that country and its people. His brilliant wit, his quaint style, made the lecture thoroughly enjoyable and at the close of his lecture a voluntary testimonial meeting held the strongest possible recommendation was signed by all the patrons of the Garden City churches and a large number of our leading citizens. Two long tables were entirely covered with wonderful specimens from the Orient. The ivory car cases are magnificent and must have required years of patient labor. An ivory skull anatomically perfect and valued at \$500 required three years to complete. He exhibited an ivory ball which had nine other balls, one inside the other. There are in the collection a set of coins from 2212 B. C. to the present time. They are of all shapes and sizes, from a ponderous coin weighing 25 ounces to a coin weighing only a few grains. He showed a large gold coin, some six inches in length and nearly four inches wide, said to be the largest gold coin ever made. He exhibited all kinds of foods and showed the shoes of all classes from the little or small footed woman's shoe not large enough for a baby up to a shoe large enough for a Chicago girl. He has all kinds and conditions of foods, some of them 2,000 years old. One shawl, made in the sixth century, is very fine and is said to be a likeness of Fan-Hsin, the Buddhist monk who traveled in America in the fourth century and called it Fu Sang, the land of flowers. The walls of the church were covered with splendid specimens of silk embroidery, showing that the "heavenly Chinese" is far ahead of all other nations in fine needle work. One piece representing three white rats, is without doubt the finest piece of embroidery in the world. It is valued at \$5,000 and has 2,000 stitches to the square inch. Every hair is as distinct as though the rat was alive. The display is really wonderful, and our people are a unit in declaring that for wit and humor, for oratory and flow of language, Tank Kee has no superior on the platform. The Union church will make a neat profit and although General Bailey's engagement closes Thursday night our citizens are endeavoring to have him remain at least one more night and give one more lecture. There was a large supper party last night, a show in the Opera house and a number of minor entertainments, but Tank Kee drew an audience that filled the large and spacious church.

SHOT JUST FOR DEVELITY
Party of Toughs Mortally Wound an Oklahoma Farmer Yesterday.

Guthrie, O. T., Dec. 30.—A special to the Leader by telephone from Chandler says:

Dr. Campbell, a well known farmer residing on the Deep Fork near this place, was shot Saturday night by a party of toughs composed of Lou Pilcock, Frank Shepherd, Frank Barker, Art Shepherd and Jack Barker. The party had been looking for a dance and also for trouble. Calling at the Campbell home they peered through a window, after finding knocking useless, and saw Dr. Campbell asleep in his bed. The account given immediately opened fire on Campbell through the window. Two balls struck him and tore through his hips. Campbell is 68 years old and physicians say

he cannot live. Officers are searching for the murderous gang.

The Barker boys are tough characters. Last year they were arrested and jailed for stealing cotton. While awaiting trial they escaped from jail and went to Texas. Recently they returned with sixty head of horses. The opinion prevailed that the horses were stolen. It is believed that Campbell knew of the Texas exploit of the Barkers, and they, fearing exposure, organized the gang for the express purpose of putting him out of the way.

The sport was divided into two events and the prizes were awarded last evening at the club's usual meeting place, as follows:

It was a pleasant sunny day, a large crowd had gathered and as all business was suspended, many of the business men with their families were out for recreation and to witness the exciting sport. Oklahoma has some of the best wing shots in the country.

DEPOSITORS SPOKE WARMLY
But They Had No Thought of Hurling the Stock Exchange Men.

El Reno, O. T., Dec. 30.—(Special.)—The versatile and highly accomplished young man who sends out news from Wichita marked "specie" is a "thrush." He made a grievous mistake, though, when he sent out that stuff relating to the meeting of depositors of the Stock Exchange bank which was held in this city recently. The committee desires, through the columns of the Eagle, that a great wrong be righted in this connection. During the progress of the meeting several harsh words were said but at no time was a single act of violence thought of. The bank officials are not in jail nor have they ever been inside of prison walls. Sheriff Cannon is the only guard in or around the premises and he remarked this morning that the statement sent out from Wichita, was a "4—4, infernal lie from beginning to end."

The people of El Reno are law-abiding and it grieves them sorely to have such reports sent out about them. Dr. Trigg and brother, of Springfield, Ill., are in the city looking up a location for the erection of a hospital. The doctor and his brother are wealthy and the building which will be erected will be a credit to the city.

Joe Myers, the genial commercial agent for the Rock Island railroad, is "berating" around the city. Joe says from El Reno to Fort Worth the road looks fine, also cattle and hogs. Freight business is not quite so rushing as it was a month ago, but the road is in a position just now to furnish a limited number of cars for hauling cattle, wheat and hogs. The road has got to be so high-toned that electric lights are placed in freight cars to facilitate the unloading of merchandise at night.

The Republicans of Canadian county will hold a mass convention in the probate court room, this city, on January 8, at 2 o'clock p. m., for the purpose of selecting eleven delegates to the statehood convention to be held at Kingsfisher January 18, 1898.

The Waters-Pierce Oil company has a monopoly in the oil trade in this city. El Reno has a town but the days are gliding swiftly by. The Cincinnati Refining company has let the contract for the erection of a number of large tanks near the Choctaw depot. This is another enterprise that will benefit El Reno.

ROBERT BEVIS ARRESTED
Held at Tecumseh O. T. on a Charge Pending in Texas.

Guthrie, O. T., Dec. 30.—Robert Bevis of Gainesville, Texas, has been arrested and is being held at Tecumseh awaiting a requisition from Texas to take him back on a charge of perjury and bond forfeiture.

IOWA THIRDS OF INDIANS
Only One Member That Has to Watch His Signature

Chicago, Dec. 30.—The Post's Washington special says: The Iowa tribe of Indians, living in Kansas and Nebraska, have just sent to congress a petition asking to have their tribal trust funds distributed pro rata among the members of the tribe and credited to the several shareholders individually on the books of the treasury department, to be disbursed for the benefit of each individual at the discretion of the secretary of the interior, as balance, if any to be paid to the heirs of each at his death according to the state laws governing inheritance. Their petition is signed with full written signatures, with the exception of one man, the only adult in the tribe who cannot write his own name.

WEYLER WHINES AND WHIMPERS ABOUT HIS TROUBLES.

Affects the Sarcasm and Trims to Assume the Magnanimous, With Indifferent Success or None at all—Doesn't Mind His Own Wrongs, But Whines Says Anything Against the Spanish Troops in Cuba Has Got Him to Whelp—Blames the Revocation of Tobacco Exports—Cuba News.

Madrid, Dec. 30.—General Weyler, the former captain general of Cuba, in his memorial to the queen regent on the subject of President McKinley's message to congress, says he is honored by the attacks made upon him and that his conduct as governor general was that of a soldier animated by honor and patriotism. Such attacks, therefore, General Weyler adds, will do him no harm, as they are aimed at him, he asserts, simply because he has done his duty. Nevertheless "since the message contained insulting observations on the Spanish troops in Cuba" he believed it to be his duty to address a protest to the crown. General Weyler affirms that the so-called pacifists whom he concentrated in the fortified districts were the prime abettors of the rebellion. The protest of the general is couched in courteous language.

TOBACCO WILL MOVE NOW.
Atlanta, Ga., Dec. 30.—A special to the Constitution from Havana, via Key West, says:

From a strictly private and yet responsible source comes the information that the port of Havana will be opened to exporting within twenty-four hours. The port was closed by Captain General Weyler's edict of May 14, 1896, for the purpose of cutting the tobacco industries of the United States, particularly those of Tampa and Key West, off from their supply. General Weyler did this, he claimed, to insure permanent employment to the discontented cigarmakers in Havana, during the troublesome times of war, but it is known that his special aim was to paralyze the Cuban colonies of the United States, from which was coming the fostering strength that made the insurgents formidable. There are about 70,000 bales of tobacco now choked in the warehouses of Havana ready to be shipped to the states the minute the port is opened. It is said that the crop is promising, all of which indicates that brighter days are dawning for the paralyzed commerce of Cuba and the waning cigar factories of the United States.

Havana, Dec. 30.—According to a report from Spanish sources at Esperanza, province of Santa Clara, a party of insurgents fled into that town on Saturday night. Bullets struck a number of residences and one bullet went through the sleeve of Senorita Valdes, daughter of the mayor of the town.

General Pando and his staff have arrived at Santiago de Cuba, by sea from the river Cauto.

The Official Gazette prints tomorrow an edict of General Pando, permitting the exportation of tobacco.

RELIEF SUPPLIES.
Washington, Dec. 30.—Assistant Secretary Day has just received a response from the superintendent of the Ward Line steamers in New York in answer to his inquiry as to whether he could announce that his line would convey supplies to Cuba for the relief of the suffering people free of cost. The prompt answer was:

"Will be pleased to accept supplies for Cuban sufferers, free of cost. Presume they will be consigned to General Lee?"

The Anacosta (Montana) Standard telegraphed last night that the secretary of state could draw on the National Park bank of New York for \$500 already subscribed and paid in by Montana people for the benefit of the Cuban sufferers. More money is promised from the same source January 1. All of this money is being distributed through Consul General Lee.

The secretary of state has directed the disbursing officer of the state department, Frank Brannigan, to take charge of any money and supplies that may be delivered to him and forward the same to Consul General Lee at Havana.

Mr. Root, the dispatch agent of the state department at New York, has been directed to draw the \$500 contributed by the people of Montana, through the Anacosta Standard, and with that sum, purchase and send to General Lee, condensed milk.

WORK OF THE YEAR
(Continued from Eighth Page.)

tangible results may as yet have been obtained, practical knowledge of at least one pole is likely to be largely increased within a short time.

Especially worthy of mention as medical discoveries are Maravigliano's anti-tubercular serum and Durnaud's microptograph, the object of which is to make the deaf and dumb hear. It is also a notable fact that a company has recently been formed for the purpose of curing disease by blood infusion. In astronomy probably the most notable achievements were the discovery at the Lowell Observatory, Arizona, by Dr. See of new double stars, principally in the southern hemisphere, and the quite recent discovery of some very large sun spots, which can be seen almost with the naked eye.

The time for passing judgment on the works of the year 1897 has not yet arrived. Some of the achievements which now seem marvelous will doubtless be deemed quite unworthy of record by the future historian. On the other hand, some of the achievements which have been deemed hardly worthy of notice may to those who come later appear among the choicest works of the year. The ultimate conclusion will probably be that 1897, while in some respects rather disappointing, witnessed the birth of some splendid achievements, especially in the world of science, and on the whole may be reckoned as one of those years which have been favorable to civilization and modern progress.

One of the most pitiable things in the world is the mutual disappointment of a man and wife.—N. Y. Weekly.
